Great news. I will communicate this to the core team as well as share that Navistar was OK with our plans.

Hello Travis,

I agree with your proposal and support going ahead with implementation, as it is consistent with the provisions of the emergency vehicle rule.

Sincerely,

Jay Smith

**Subject:** Ford Motor Co. - Diesel Emergency Vehicles In-Service Support Plan - Please Review

Jay,

Please find attached a letter detailing our plan to support Ford Motor Co. 2008-2013MY 6.4L and 6.7L F-Series Super Duty emergency vehicles that will allow DPF regeneration through Operator Commanded Regen via a service tool. As noted, the service tools will be configured for a particular customer and restricted by VIN.

As noted, we listed 8/9/2013 as a response date. We were hoping to receive approval before you are out of office and to kick-off implementation with service tool supplier to provide customer support.

Let me know if you have any questions or issues with the proposal.

I can also submit this letter to the 'Application-CI\_Cert@epa.gov' e-mail address, if required.

Thanks

Best Regards,

Travis Henney (THENNEY)
